SLATING AND TILING DIVISION

# Slating, Tiling and Leadwork: Traditional roofing services for

▼ Dreadnought roof tiles - Reading ▼

▼ Plain clay tiles - Hitchin ▼

For over nearly 40 years, Letchworth Roofing has built a nationwide reputation for undertaking roofing and cladding projects of all shapes and sizes. Working on industrial and commercial properties as well as domestic and residential properties Letchworth Roofing are involved with large new build projects, refurbishments as well as smaller extensions, minor repairs and ongoing maintenance. We offer a complete service.

Our Slating and Tiling Division offers a personal and friendly service, with total commitment to quality, reliability and safe working practices. We undertake all types of roofing work, from minor repairs to complete roof replacement.

We provide roofing services for all roof types whether they be for pitched roofs involving slating, tiling or leadwork, but also for all forms of flat roofing, sheeting, cladding, green roofs, rooflights and more.

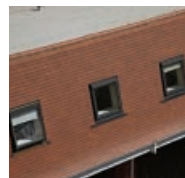

**Our Slating and Tiling team have the skills to carry out the full range of traditional roofing work including:**

## **SLATING:** New, Natural, Fibre-cement and Reclaimed

For a modern feel and clean lines - we provide a choice of slate options - from local or international suppliers. We also have a choice of reclaimed slate in our reclamation yard - perfect for period property refurbishments.

## **TILING:** New Clay, Metal and Reclaimed

Our traditional roofing skills extend to roofing work that involves a variety of tile types and colours and we source only from quality manufacturers such as Marley, Sandtoft, Redland and Dreadnought for either new build or to match existing roof materials.

## **LEAD WORK:** Flashings, Dormer Roofs

Working on a whole range of pitched roofs, our teams are multi-disciplined in dealing with intricate leadwork, flashings, rain-water goods, and the supply and fitting of dormer roofs, sun pipes and rooflights.

## **FLAT ROOFING:** Domestic work that also includes new extensions, and roof replacement or refurbishment.

Our Slating and Tiling team have the experience in dealing with not only pitched roofs but also flat roofs including asphalt, felt and single ply.

the residential, commercial and retail sectors.

## Your first step...

When you ask Letchworth Roofing for an objective survey, that is exactly what you'll get. Your needs will be assessed by an experienced estimator – and their advice will be unbiased, practical and expert.

We take pride in understanding the individual needs of our customers, and tailoring our survey recommendations to what you, the customer, actually require. A home or building owner, for example, will have a longer term view than a short-term leaseholder. Some clients will be more concerned with the physical appearance of the materials used; others may have an over-riding wish to reduce energy consumption or will want to be sure that the work meets, at a minimum, all current building regulations.

There is a total commitment to health and safety for every project reinforced by random on-site safety audits by our independant Safety Advisor as well as our Contracts supervisory staff.

Letchworth Roofing holds a wide range of construction industry accreditations.

Our Slating and Tiling department work for a wide range of customers including:

### Domestic:

The full range of slating, tiling and flat roofing services to all types of residential properties.

### Housing Associations:

Houses, flats and apartment blocks that need to be maintained to a consistant quality.

### Local Authorities:

For schools, healthcare, social housing or local authority properties that require a competent, long established and reliable contractor.

### Retail:

We work either directly or jointly with a main contractor for new build and/or refurbishment of shopping centres, superstores or the High Street.

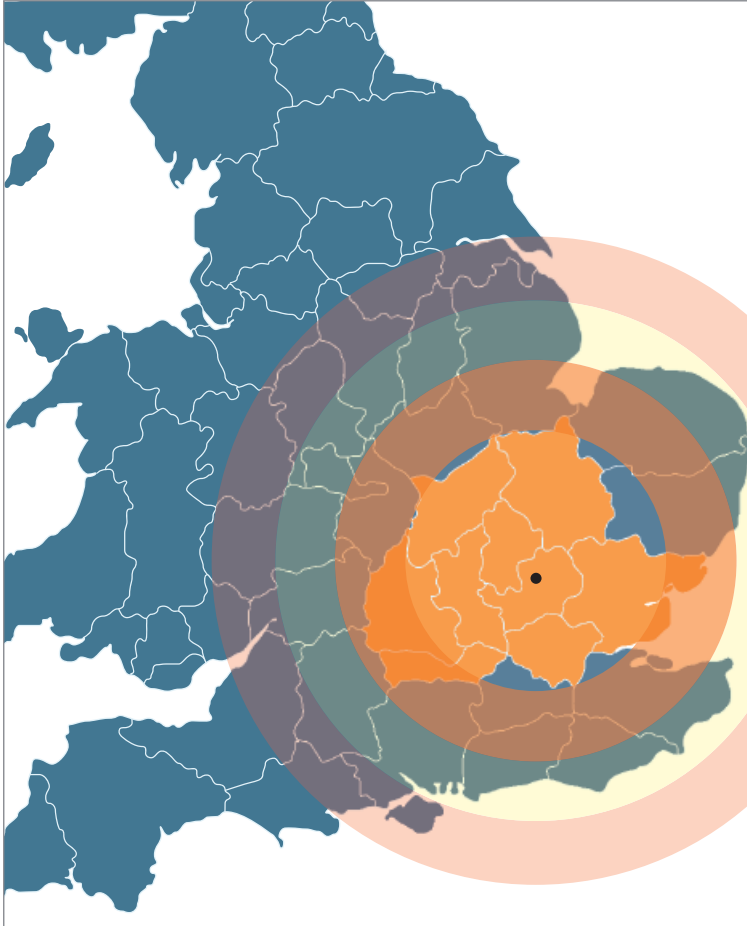

### Main Contractors:

We have close working relationships with main contractors where we work on new build or refurbishment projects for all industry types as an approved or preferred subcontractor.

## Where do we operate?

Our usual area extends throughout London, East Anglia and the Home Counties. By arrangement, we can always handle work further afield - call us to discuss.

## Other Letchworth Roofing services

Our Special Works department undertakes refurbishments, repair and maintenance to all roof types. Our Major Projects department are involved with new build projects and extensions for building contractors and large industrial and commercial clients. Contact us for further information.
